AVAILABLE UNIT SIZE(S) & CODES:  
CL1032 - 750ml (foaming trigger spray)  
CL1031 - 5L Litre

**SAFE HANDLING:**  
Always wear Personal Protective Equipment (PPE) when handling, dispensing and using chemicals.

Refer to the Safety Data Sheet (SDS) for detailed information and immediate first aid measures including medical emergency helpline number.

Use appropriate PPE as indicated in the safety data sheet.

Kills 99.999% of the most common forms of bacteria including MRSA and conforms to EN 1276.

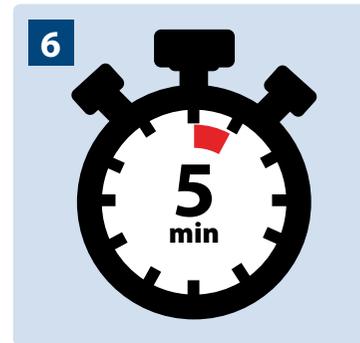

Remove all visible dirt and gross soiling from surfaces.

Clean hand basin surfaces, handles and taps using a damp cloth. Change the cloth depending on area and soiling.

Spray onto all fixtures and surfaces including taps and basins and allow contact time.

To disinfect and to meet the requirements of protocol EN 1276 allow 5 minutes contact time.

EN 1276 (bacteria) - leave for 5 minutes

Wipe with a clean cloth and rinse with fresh water. Buff with a clean cloth/paper towel for extra shine or allow to air dry.
