

TENA Wet Wipes

Gentle 3-in-1 wipes that cleanse, moisturize, and protect fragile skin

- Primarily used for frequent perineal cleansing as part of continence care, but can be used for full body cleansing
- XL size (30cm x 20cm) – a single wipe can cleanse a large area of skin before disposal
- Soft and thick material for gentle touch
- Pre-moistened with convenient no-rinse formula
- Dermatologically tested
- Helps to maintain the skin's natural pH
- Freshly scented to help control odour
- One-handed dispensing and clean touch system avoids the risk of touching the next wipe in the pack to minimise cross contamination risk
- Skin Health Alliance (SHA) Endorsed

Safety

The product fulfils the requirements of Regulation (EC) No. 1223/2009 of the European Parliament and the Council of 30 November 2009 on cosmetic products. As stipulated in Article 18 the product has not been tested on animals. The production unit is following the international standard ISO 22716:2007 as regards product documentation and Good Manufacturing Practices, GMP. The product has been evaluated with epicutaneous testing under dermatological control.

First aid

If discomfort is experienced after eye or skin contact, rinse for several minutes with lukewarm water. If eye or skin irritation persists, consult a physician. Upon ingestion, consult a physician.
