

Grease Trap Maintainer

- Highly concentrated biological formulation designed specifically for difficult grease applications such as grease traps, drain line treatment, wet wells, and sewage injection pits.
- Rapidly degrade all types of oils and fats found in food handling establishments, thereby clearing drains and eliminating odours.
- The unique formula contains high levels of bacterial spores selected for effective grease removal.
- Regular maintenance applications helps to keep drains free flowing, saving expensive jetting and rodding.

RECOMMENDED DILUTION:

Cleanline Eco Grease Trap Maintainer should be automatically dispensed into the head of the drain system or grease trap to prevent blockages. The dosage rate is dependent on the grease trap size.

Grease trap size (litres)	Drainage run (metres)	Dosage per day (ml)
Up to 100L	10m - 30m	100ml - 125ml
100L > 250L	30m - 50m	125ml - 150ml
250L > 500L	50m - 70m	150ml - 250ml
500L > 1000L Plus	70m +	250ml - 400ml

ENSURE YOU ARE WEARING RECOMMENDED PERSONAL PROTECTIVE EQUIPMENT (PPE) AND HAVE THE CORRECT EQUIPMENT FOR THIS TASK.

INSTRUCTIONS FOR USE

Grease traps & drains: These should be thoroughly cleaned before maintenance program commences. If the grease trap is filled with very hot water, flush with cold water first. Remove cap and insert pick up tube from automatic dosing pump, screw fitted cap on to bottle in clockwise direction. Prime pump until liquid is visible in delivery tube.

Alternatively, Cleanline Grease Trap Maintainer can be manually dosed into the drainage system at a sink or grease trap. Dilute the recommended volume of product with 1 litre of water and pouring directly into the drainage system.

DID YOU KNOW? DARIN DOSING PUMPS ARE SET TO INJECT THE GREASE TRAP MAINTAINER INTO DRAINS AND GREASE TRAPS AT NIGHT WHEN WASTE-WATER IS COLD BECAUSE HOT WATER KILLS BIOLOGICAL ACTIVITY.

CODE AND CASE SIZE:

CL1072 - 5 Litre (supplied in case of 4)

CL1073 - 10 Litre **CL1074** - 20 Litre

PRODUCT INFORMATION:

Appearance: Green Liquid

Odour: Perfumed

Oxidising: Non-oxidising (by EC criteria) Solubility: Fully miscible with water

Viscosity: Non-viscous Flash point °C: >70 pH as supplied: 5 - 7

QUALITY ASSURANCE:

This product is manufactured in the UK for Bunzl UK & Ireland and produced under ISO 9001 Quality Management System & ISO 14001 Environmental Management Systems. This product has not been tested on animals.

ENVIRONMENTAL:

All surfactants used in Cleanline products comply with the current European regulations concerning biodegradability & protection of the environment.

SAFE HANDLING:

Always wear the correct Personal Protective Equipment (PPE) when handling, dispensing or using chemicals. All PPE should comply with appropriate standards and be readily available for use.

In case of an accident please refer to the product Safety Data Sheet (SDS) for immediate first aid measures and helpline telephone number for a medical emergency.

SAFE STORAGE:

Store sealed in original container in a cool, well ventilated area away from direct sunlight and extremes of temperature.
