

CL3010

PRODUCT USAGE QUICK GUIDE

4-Way Toilet Descaler

Toilet bowl and urinal cleaning and limescale removal

Cleanline 4-Way Toilet Descaler is a high active, multi-action acidic toilet, urinal and washroom cleaner with highly effective descaling properties.

AVAILABLE UNIT SIZE(S) & CODES:
CL3010 - 1 Litre

SAFE HANDLING:
Always wear Personal Protective Equipment (PPE) when handling, dispensing and using chemicals.

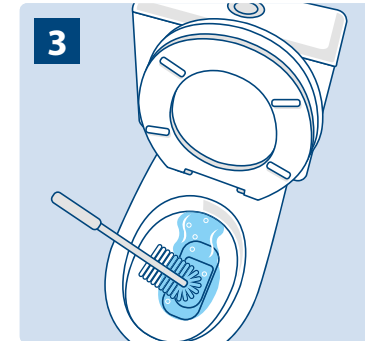

Refer to the Safety Data Sheet (SDS) for detailed information and immediate first aid measures including medical emergency helpline number.

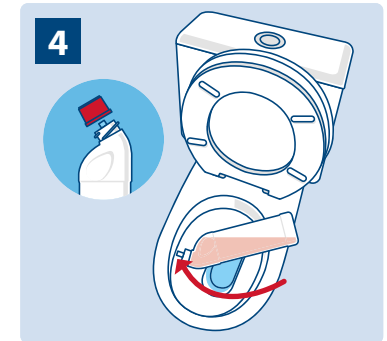

1 Use appropriate PPE as indicated in the safety data sheet.

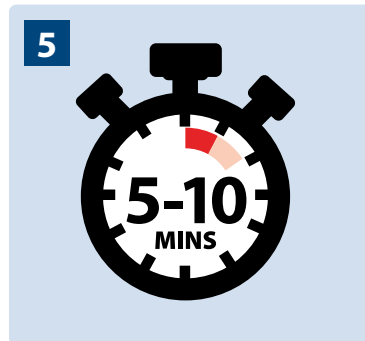

2 Prepare area: Place appropriate cleaning in-progress safety signage.

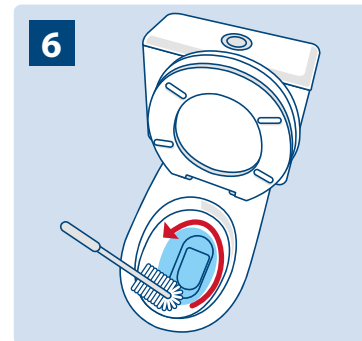

3 Flush toilet and reduce water level with the toilet brush around "S" bend.

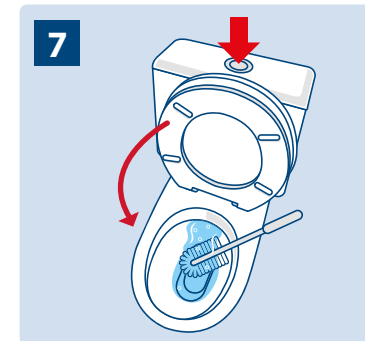

4 Remove the cap and direct nozzle under toilet rim at the water outlets. Squirt evenly over the surface.

5 Leave for 5-10 minutes.

6 Brush around bowl – especially around rim and below water line.

7 Lower the toilet seat before flushing to avoid splashback and rinse brush.

8 Remove safety signage.

WARNING: Do not use in conjunction with any bleach based products.
