

# Laundry Detergent

Cleanline® Super Laundry Detergent is a high grade concentrated non-biological laundry detergent offering excellent performance on a wide variety of stains and soils, in all water conditions.

- The professional detergent formula designed to leave clothes extremely clean and smelling fresh.
- Excellent performance across a wide range of stains and soils.
- For professional environments including commercial, nursing homes, hospitals, hotels and on-premise laundries.
- For use with Cleanline professional laundry auto-dosing system and setup by technical representative to ensure optimal performance.

Dispense into machine through a laundry auto-dosing system. The prescribed dosage will depend on wash temperature, soil level, type of linen, water hardness and performance required.

General soiling: **8ml - 10ml** per kilogram of dry laundry.

Heavy soiling: **10ml - 15ml** per kilogram of dry laundry.

**For use with Cleanline professional laundry auto-dosing system and setup by technical representative to ensure optimal performance.**

## GOOD LAUNDRY PRACTICE

**Transport and sorting:** To reduce the risks of contamination, wear personal protective equipment. Read the Care Label instructions and sort the laundry. Transport linen using a trolley.

**Loading and washing:** Load the washing machine according to the manufacturer's recommendations. Select the wash programme appropriate for the laundry classification. Do not overload the machine. This will produce poor results and items will require re-washing. It can also cause creasing. Do not under-load, if possible. An under loaded machine costs as much to run as a fully loaded machine.

**Unloading and finishing:** Using a clean linen trolley or bin, unload clean linen. Cool down on polycotton items is essential to prevent thermal shock and to avoid permanent creasing. When drying, follow the correct drying temperature as stated on the Care Label. Remove linen once dryer has completed. Do not overload the dryer as this causes wrinkling and increases drying time.

At the end of each working day check the levels in the product drums and change if necessary.

### CODE AND CASE SIZE:

**CL5015** - 10 Litre

### PRODUCT INFORMATION:

Appearance: Green liquid

Odour: Pleasant odour

Solubility: Highly soluble

pH as supplied: 8.0 - 9.0

### QUALITY ASSURANCE:

This product is manufactured in the UK for Bunzl UK & Ireland and produced under ISO 9001 Quality Management System. This product has not been tested on animals.

### ENVIRONMENTAL:

All surfactants used in Cleanline Super products comply with the current European regulations concerning biodegradability & protection of the environment.

### SAFE HANDLING:

Always wear the correct Personal Protective Equipment (PPE) when handling, dispensing or using chemicals. All PPE should comply with appropriate standards and be readily available for use.

In case of an accident please refer to the product Safety Data Sheet (SDS) for immediate first aid measures and helpline telephone number for a medical emergency.
