The range is specifically developed for your professional cleaning needs, and comes with free online cleaning & HACCP guides, helping you meet hygiene standards.

business such as serving your customers or caring for your residents.

Cif Professional Oven & Grill Cleaner

Application

For use on ovens, grills, and other surfaces for tough grease and carbon deposits.

Directions of use

Preheat the surfaces to be cleaned between 50°C and 70°C. Switch off the equipment before applying. Spray Cif Professional

Oven and Grill Cleaner onto surface. Leave for 20-30 minutes.

Rinse thoroughly with clean water. If the oven has not been cleaned regularly, several applications may be necessary to remove the toughest carbon deposits. Do not use on aluminium or non-alkali resistant metals or painted surfaces. Do not use on self-clean panels.
